## WHAT IS APPGMS?

AppGMS™ is a Garment Sales and Stock Control system specially developed to meet the needs of Importers, Wholesalers, Resellers and Retailers across the full spectrum of the garment industry.

Used daily by companies in the Corporate, Uniform, Casual and Career wear, Fashion, Footwear, Leisure, Safety, Security, Sports, Workwear sectors.

First launched in 1998 AppGMS™ has been designed and developed from the ground up as a true Windows server product.

Based on the Microsoft SQL database engine, AppGMS™ offers enormous capability to meet the demands of any size of company.

It is very user friendly and first time computer users will quickly become familiar with the Outlook style format and the clear uncluttered appearance of entry screens.

## With AppGMS you will get:

- Clear business benefits from the start.
- A system configured to fit like a glove.
- Fixed costs, no surprises.
- Continuous personal support.
- A software system that grows with you.
- A future you can depend on.

*"The only garment management system you will ever need"*

Whatever your situation, choosing your next garment management system is a huge decision. It is a vitally important one, whether you are moving up from paper and spreadsheets, wanting more tailored capability from your accounts-based package or needing to upgrade from tired old legacy-based systems.

So you have to be know exactly what your new system must offer. You can be sure that when you move to AppGMS™ it will be the last time you ever have to make this decision.

We are so confident you will love our software we always offer **FREE** Quotes, **FREE** Online Demos, **FREE** One on One Software Demos
